START YOUR ADVENTURE

Welcome to Med Cadet 2026

This is **your** workbook for the week. It follows the course programme day by day, so you'll fill in each section as you go – typing into the green boxes on a tablet or laptop, or writing in ink on a printed copy. Your instructors will check it every evening. When your Achievement Record is signed off you'll be awarded your **Med Cadet 2026 certificate** at Pass, Merit or Distinction.

DAY	WHAT'S HAPPENING	WORKBOOK
Sun 25	Arrival, intro, ice breakers • Emergency services & primary survey	Q1–3 • Reflection 1
Mon 26	Basildon University Hospital • Nursing & healthcare theory	Q4–7 • Reflection 2
Tue 27	Visitor Day • Stop the Bleed • Trauma • Scenarios • Night exercise	Q8–12 • Reflection 3
Wed 28	Safeguarding & wellbeing • HART / fire station • Paediatric First Aid	Q13–21 • Reflection 4
Thu 29	Interview skills • Merville Barracks • The heart & ECG • Fun night	Q22–27 • Reflection 5
Fri 30	Mock interviews, feedback, awards and presentations	Q28 • Reflection 6 • Record

HOW IT WORKS

- **Green box** – type or write your answer.
- **Square** – tick box.
- **Numbered diagram** – label each number.
- Each question has an **Achievement Box**. You get up to 3 attempts – if it says **Not yet**, read the feedback and try again.
- Write in your own words and note where you found information.

IMPORTANT

This workbook supports your practical training – it does **not** replace it. Only give first aid you have been trained to give and always follow your instructors. If anything on this course upsets you, tell a member of staff – that is always OK.

I CONFIRM THE WORK IN THIS WORKBOOK IS MY OWN

+ QUESTION 3

You find a man slumped on a bench at a bus stop. He doesn't answer when you speak to him. Using the chart, explain in no more than 150 words why we use the primary survey (DRSABCD) and what you would do at each step for this casualty.

Basic Life Support Chart

D
DANGER

Assess your surroundings for potential dangers and get to a safe place, if necessary

R
RESPONSE

Check if the person can respond to you. Ask their name, gentle shake their shoulder. If not responding, move to next step

S
SEND HELP

Call 999 or ask someone else to. Follow instructions/questions of the operator

A
AIRWAY

Open airway, look for any obstructions, maintain neutral head position

B
BREATHING

Look, listen and feel for breathing. If not breathing, begin CPR

C
CPR

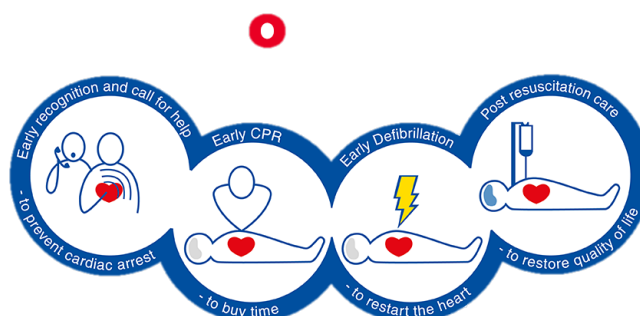

Begin CPR by applying 30 chest compressions, followed by two breaths into the patient's mouth

D
DEFIBRILLATOR

Use a Defibrillator and follow the prompts

The Chain of Survival

Each link buys the casualty time. The more links that happen quickly, the better their chance of survival.

1600	Depart hospital – back at CTC for dinner 1700
1800	Debrief and theory: nursing observations & infection prevention

Nursing and the NHS

The NHS was founded on **5 July 1948** by Health Minister **Aneurin Bevan** to give everyone healthcare based on need, not the ability to pay. Today it is one of the largest employers in the world, and nurses are its biggest workforce.

The **Royal College of Nursing (RCN)** is the professional body for nursing. Through the **King's Nursing Cadets** scheme (formerly the Prince of Wales Nursing Cadet Scheme) cadets can explore nursing and gain recognised learning. Basildon University Hospital is part of Mid and South Essex NHS Foundation Trust.

NURSING FACTS

- **Four fields of nursing:** Adult • Children's • Mental Health • Learning Disability.
- **Regulator:** every registered nurse is on the Nursing and Midwifery Council (NMC) register and follows **The Code**.
- **Routes in:** nursing degree (usually 3 years) • registered nurse degree apprenticeship • nursing associate • starting as a healthcare assistant.

MY ACHIEVEMENT RECORD

Your instructors sign off each criterion as you achieve it

HOW IT WORKS

PASS – all P criteria. **MERIT** – all P and M criteria. **DISTINCTION** – all P, M and D criteria. Your certificate shows the level you achieve.

UNIT 1 EMERGENCY SERVICES		DONE	STAFF	DATE
P1	Describe the emergency services and their roles (Q1, Q19, Q24)	☐		
M1	Give a correct M/ETHANE report (Q2)	☐		
D1	Triage casualties and explain priorities (Q10)	☐		
UNIT 2 NURSING & HEALTHCARE		DONE	STAFF	DATE
P2	Describe healthcare roles seen at Basildon Hospital (Q5)	☐		
P18	Describe the NHS, the four fields of nursing and the NMC Code (Q4)	☐		
P19	Explain the 5 Moments for Hand Hygiene and wash hands correctly (Q6 + practical)	☐		
M9	Record and explain a full set of nursing observations (Q7 + practical)	☐		
D9	Explain a route into nursing and your own next step (Q4, Q23)	☐		
UNIT 3 FIRST AID		DONE	STAFF	DATE
P3	Explain and carry out a primary survey – DRSABCD (Q3)	☐		
P4	Perform adult CPR and use a training AED (Q11 + practical)	☐		
P5	Recovery position and choking (Q12 + practical)	☐		
M2	Manage a scenario casualty and give a clear handover (practical)	☐		
D2	Lead a team through a multi-casualty scenario (practical)	☐		
UNIT 4 MAJOR BLEEDING & TRAUMA		DONE	STAFF	DATE
P8	Label a tourniquet and explain its use (Q8)	☐		
P9	Apply a training tourniquet and record the time (practical)	☐		
M4	Decide tourniquet vs packing by wound site (Q9)	☐		
D4	Pack a junctional wound on a training model (practical)	☐		
UNIT 5 PAEDIATRIC FIRST AID		DONE	STAFF	DATE
P10	Compare adult, child and infant first aid (Q20)	☐		
P11	Perform infant/child CPR and manage choking (practical)	☐		
M5	Recognise serious childhood illness and act (Q21)	☐		
D5	Explain why rescue breaths come first for children (Q20)	☐
